**NEW - COLLAR Yokes for 32 x 38 x Z8 P.T.O. & P.I.C.**

Dear customers ,

This is to inform you that we have released yet another NEW product to complete our range : the new collar yokes for **32 x 38 x Z8** type P.T.O. & P.I.C. have been designed to meet all the EC requirements and therefore fully complies with all the safety standards EN 5674 and EN 12965;

Fig. 1 - 32 x 38 x Z8 End yoke – for “Russian” type Tractors P.T.O. and Implements P.I.C.

The new collar yokes will be available for all our range of PTO drive shafts ; from 10HP up to 300HP type drive shafts.

Shortly you will be contacted directly by our sales dept. to ensure the correct switch over to the new type of end yokes on your future orders and , in the case you are not using this type of product yet , we will also be sending a complete list of “Russian” type collar yokes where you can check in detail if these products can be of your interest.

We are pleased to underline that BENZI is the first company to propose on the market such a solution for 32 x 38 x Z8 type P.T.O. and P.I.C.
